

## **Women In Management: Coming Soon to a Campus Near You – HSC**

We invite you to join us in bringing Women in Management to the Health Sciences Campus by attending a breakfast brainstorming session.

If you've been curious or have not heard about what this dynamic group has been doing for the past 30 years, now you can participate without hopping the tram to UPC for every event. WIM is coming to the Health Sciences Campus!

As WIM celebrates its 30<sup>th</sup> anniversary this year, its members look forward to involving more of HSC's vibrant, progressive women in their group.

WIM's luncheons feature speakers who accomplish extraordinary feats at USC. The luncheon series serves to:

- inspire members and guests to think in new ways about their work.
- introduce women to other women who are also committed to producing exceptional results.
- provide a broader picture of the university as a whole.
- create a forum for building partnerships between departments, and now between campuses.

Women in Management (WIM) was formed in 1979 in response to the need for an organization for women in leadership positions at the [University of Southern California](http://www.usc.edu) <http://www.usc.edu>. Originally composed of about 20 visionary women, [WIM](http://www.usc.edu/org/wim/index.html) <http://www.usc.edu/org/wim/index.html> now boasts a membership of approximately 143 women. The compelling forces driving the formation of Women in Management included the need for increased representation of women in responsible University positions, equal pay for men and women holding similar positions, and the provision of a forum in which women could develop leadership skills. The purpose of the organization remains the same today as it was then - to provide a forum for communication, professional development, and career opportunities for women at USC.
